Experience

Software Developer Bertrandt- Bucharest 2022 - Present

Valuable experience in a collaborative environment, where I developed my skills in both backend (Python, Polars, Dask, Flask) and frontend (Figma). Gained practical experience in task management using Jira and Agile workflows, contributing to component implementation and UI design. An ideal setting for professional growth at the start of my career.

Game Tester Electronic Arts - Bucharest 2018 - 2018 & 2019 - 2019

Game testing (specific parts of the game) and reporting visual, audio, and control-related bugs. Reproducing errors to verify if they were fixed. Achievements: Contributed to eliminating bugs in new versions of APEX before release. Worked during the summer in both periods.
